SCHOOL COHORT DEFAULT RATES FOR THE FEDERAL FAMILY EDUCATION LOAN PROGRAM FY 1993, FY 1994, AND FY 1995 (DMS020)

The attached report on school cohort default rates includes the fiscal year (FY) 1993, FY 1994, and FY 1995 official cohort default rates for all school, regardless of their current program participation status.

The official cohort default rates for each school are catalogued by state and in descending order of the cohort default rate. This list includes all schools for which FY 1995 official cohort default rates have been calculated, with the exception of foreign schools. Schools with fewer than 30 borrowers entering repayment in FY 1995 that do not have average cohort default rates calculated are listed at the end of their respective state listing, regardless of their actual cohort default rates.

The type of loan programs the schools are currently participating in are indicated in the far left column with one of the following codes:

F = FFEL Program
D = Direct Loan Program
B = FFEL and Direct Loan Program

This report also includes the following information about each school:

a) Office of Postsecondary Education Identification Number(OPE ID)- This is a special number assigned by the Department to identify each school. A school's cohort default rate reflects borrowers attending the school's main campus and any additional locations. The Department does not calculate separate cohort default rates for these additional locations.

b) School name and address

c) School type and control

d) Year - The fiscal year for which a cohort default rate was calculated.

e) Number in default - The number of borrowers who entered repayment in the applicable fiscal year (October 1 through September 30) and defaulted on their loans during either that fiscal year or the subsequent fiscal year.

f) Number in repayment - The number of borrowers who entered repayment status during the applicable fiscal year.

g) Default rate - This is calculated by dividing the number of borrowers who entered repayment in a given fiscal year (denominator) into the number of borrowers who entered repayment and defaulted during the corresponding cohort period (numerator).

h) Program Rate - The type of rate calculated for a particular year as indicated in the right column with one of the following codes:

FL = FFEL
DL = Direct Loan
DU = Dual (FFEL and Direct Loan)

i) Totals - The last page of this report provides the total number of school by type and control.

The cohort default rate for a given year is a ratio of the number of borrowers in default to the number of borrowers in repayment(See e, f, and g above). For example, a school's cohort default rate for FY 1995 is the percentage of students whose loans entered repayment from October 1,1994 to September 30, 1995 and defaulted between October 1, 1994 and September 30, 1996.

Other Official Cohort Default Rate Reports

In addition to the attached report, the following official cohort default rate reports also are available:

Loss Of Federal Family Education Loan (FFEL) Program and William D. Ford Federal Direct Loan Eligibility Report and Extended Loss Of FFEL Program and Direct Loan Program Eligibility Report (DMS001)

A list of schools with FY 1993, FY 1994, and FY 1995 official cohort default rates of 25.0 percent or greater. In accordance with §435(a)(2) of the Higher Education Act of 1965, as amended, and federal regulation at 34 C.F.R. Section 668.17, schools with FY 1993, FY 1994, and FY 1995 official cohort default rates of 25.0 percent or higher lose their participation in the FFEL and/or Direct Loan programs unless they successfully appeal. **Note: Historically black colleges or universities, tribally-controlled community college, and Navaho community colleges are statutorily exempt from this provision until July 1, 1998.**

School Subject to Limitation, Suspension, Or Termination (LS&T) From All Title IV Student Financial Aid Programs (DMS002)

A list of schools with FY 1995 official cohort default rates in excess of 40.0 percent. These schools may be subject to limitation, suspension, or termination (LS&T) from all Title IV student financial aid programs based on their FY 1995 official cohort default rates. LS&T actions are governed by 34 CFR Part 668, Subpart G. **Please note: Schools with fewer than 30 borrowers entering repayment in FY 1995 are not subject to LS&T actions if they do not have average cohort default rates calculated because of the absence of 3 years of default data. A school with less than 3 years of default data will have an unofficial rate for the most recent cohort year.**
